

User Guide

I. Client

1. Registration

To start ordering delicious meals with our app, you first need to create an account. Follow the steps below to register:

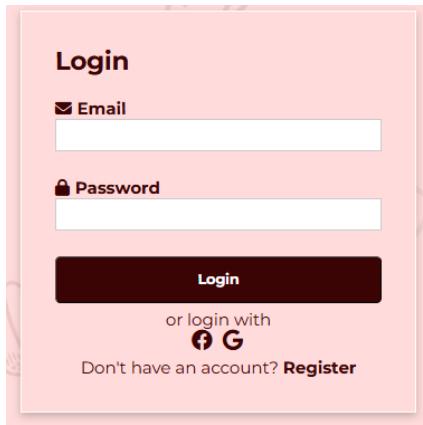

The registration screen is titled "Register". It contains fields for "First Name", "Last Name", "Choose your gender" (with radio buttons for Male and Female), "Address", "Phone number", "Email", "Password" (with a note about password strength: "Very Weak"), "Repeat Password", and a "Register" button. Below the "Register" button are links for "or register with" and social media icons for Facebook and Google. At the bottom, it says "Already have an account? [Login](#)".

- Click on the Register button on the home screen
- Fill in your personal information and contact details: name, gender, address, phone number, email
- Set a secure password
- You can also register quickly using your **Facebook** or **Google** account
- Tap on Login at the bottom of the screen if you've already signed up

2. Login

If you already have an account, follow these simple steps to access the app and start ordering:

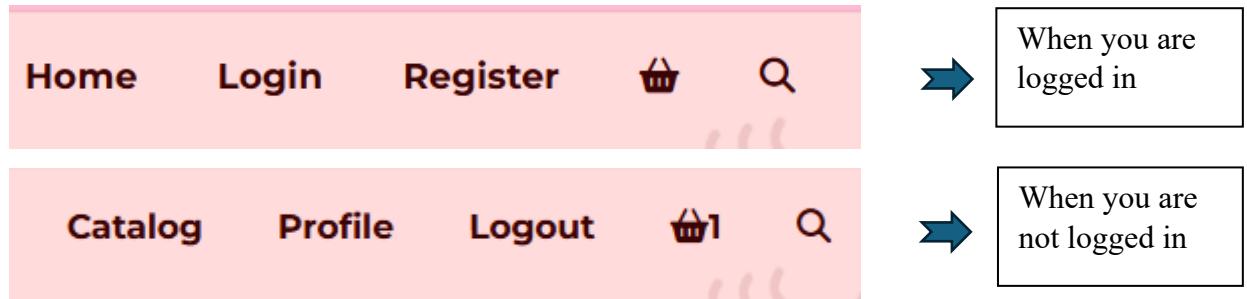

The login screen is titled "Login". It contains fields for "Email" and "Password", and a "Login" button. Below the button are links for "or login with" and social media icons for Facebook and Google. At the bottom, it says "Don't have an account? [Register](#)".

- Click on the Login option
- Enter your email and password
- If you can't remember your password, click on *Forgot password?* to reset it via email
- You can also log in using your **Google** or **Facebook** account with a single tap
- Click on **Register** if you don't have an account yet and want to sign up

3. Navigation bar

Our app is designed for a smooth, user-friendly experience. The navigation bar helps you quickly access key features and adapts based on your login status to provide the most relevant options.

4. Catalog

Welcome to BiteBunny's restaurant catalog! Here's how to navigate and use this page to find and order from your favorite restaurants:

The screenshot displays a restaurant catalog with a sidebar for filters and three main restaurant cards.

Filters: On the left, there are icons for "burgers", "pizza", "pasta", "healthy", "asian", "desserts", and a "search more" button.

Restaurants:

- Asian Express**: Address(id=1, street=Tsar Osvoboditel Blvd, city=Sofia) Asian. Rating: ★ 4.5, Time: 30-45 min. Buttons: View menu, Favorite.
- Pasta Place**: Address(id=2, street=Vitosha Blvd, city=Sofia) Italian. Rating: ★ 4.5, Time: 30-45 min. Buttons: View menu, Favorite.
- Fast Grab**: Address(id=3, street=Graf Ignatiev St, city=Sofia) Fast Food. Rating: ★ 4.5, Time: 30-45 min. Buttons: View menu, Favorite.

Filters Section

At the top, you can filter restaurants by food type:

- Burgers
- Pizza
- Pasta
- Healthy
- Asian

- 🍰 Desserts
- 🔎 Search More: Find additional cuisines not listed above.

Simply tap an icon to filter the restaurant list based on that cuisine.

Restaurant Cards

Each restaurant is displayed in a card format with key information:

- **Image:** Shows a dish or a sample from the restaurant.
- **Name:** The name of the restaurant
- **Cuisine Type:** Under the name
- **Rating:** Shows the average customer rating
- **Delivery Time:** Estimated delivery window

Buttons:

- **View Menu:** Tap to explore the full menu.
- **Favorite:** Tap the heart to save the restaurant to your favorites list for quick access later.

5. Search page

The **Search page** helps users find exactly what they're craving with ease. Here's how it works:

The search page features a header "Craving something delicious?" with a search bar and location pin. Below are six cuisine filters: burgers, pizza, pasta, healthy, asian, and desserts. Three restaurant cards are displayed:

- Asian Express**: Address(id=1, street=Tsar Osvoboditel Blvd, city=Sofia) Asian. Rating 4.5, Delivery 30-45 min. Buttons: View menu, Favorite.
- Pasta Place**: Address(id=2, street=Vitosha Blvd, city=Sofia) Italian. Rating 4.5, Delivery 30-45 min. Buttons: View menu, Unfavorite.
- Fast Grab**: Address(id=3, street=Graf Ignatiev St, city=Sofia) Fast Food. Rating 4.5, Delivery 30-45 min. Buttons: View menu, Favorite.

Search Bar

- **Prompt:** “*Hop in! Find your next bite...*”
- **Search Field:** Type the name of a dish, cuisine or restaurant
- **Location Pin Icon:** (Placeholder for future location-based filtering)
- **Search Button:** Tap the **Search** button to view filtered results

Filters (Cuisine Shortcuts)

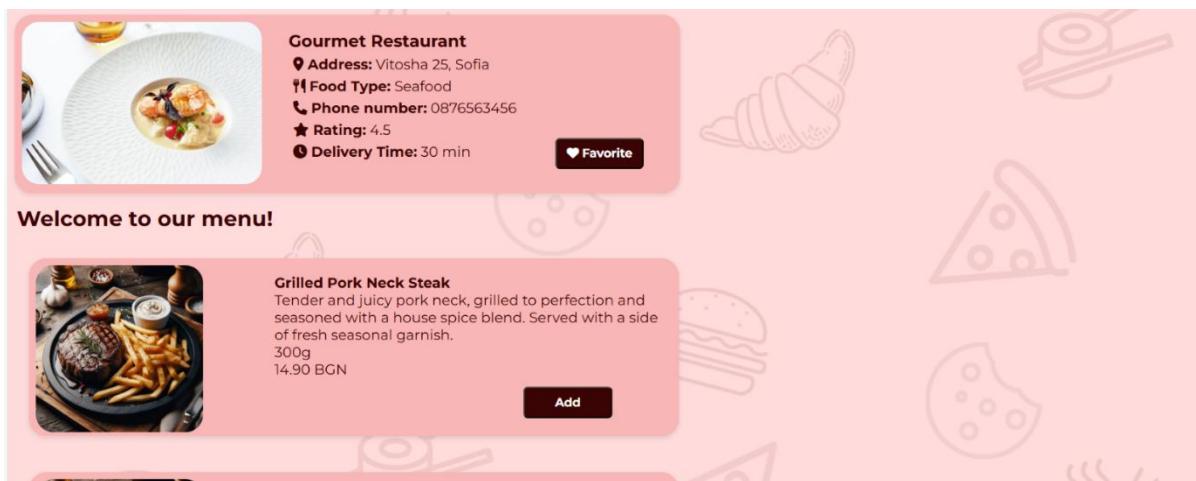

Just below the search bar, you'll find quick filters by category: burgers, pizza, pasta, healthy, asian, desserts. Tap any icon to instantly filter the results.

Restaurant Listings

Each search result is displayed as a card, showing: restaurant name, address, cuisine type, rating, estimated delivery time, actions – view menu and favourite / unfavourite.

6. Menu page

This page displays detailed information about the selected restaurant, along with its full menu.

At the top of the menu page, users will see the essential details about the selected restaurant:

- Restaurant name
- Address
- Food Type
- Phone number
- Rating
- Delivery Time

❤️ Favorite Button

Located near the restaurant info. When tapped, this adds the restaurant to the user's favorites list.

Menu Items List

Each item in the menu is displayed with:

- Name of the dish
- Description
- Portion size
- Price

Add Button

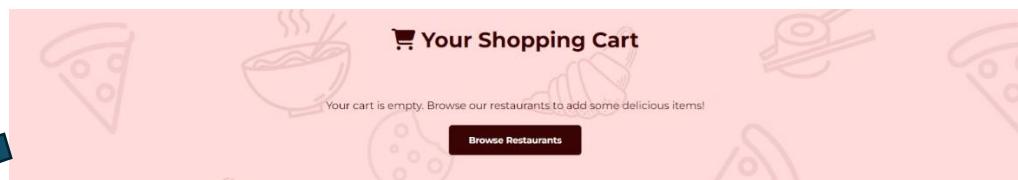

Displayed next to each menu item, this button adds the dish directly to the user's shopping cart.

Cart Integration

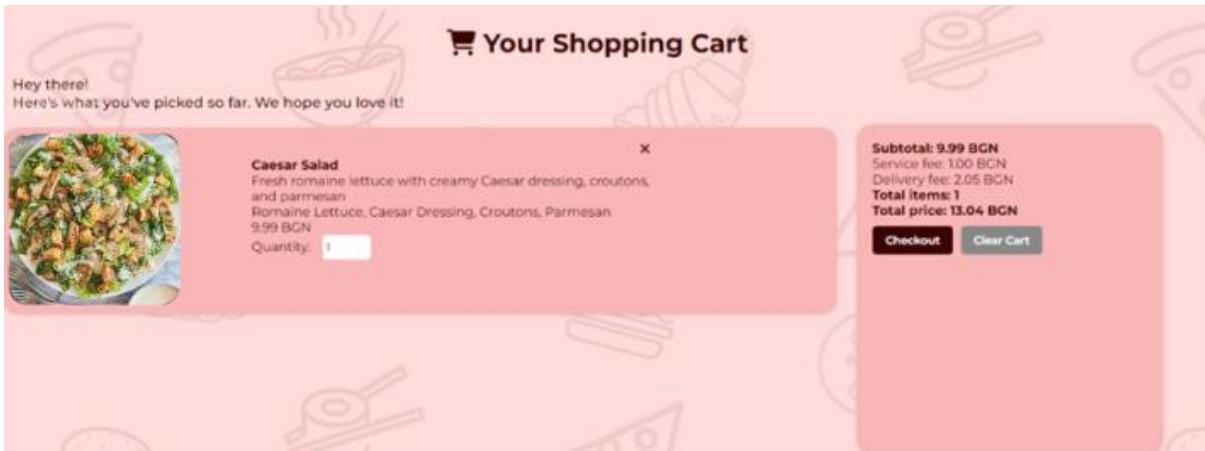

- Every time a user taps the **Add** button, the selected item is added to their cart.
- The cart is accessible via a **floating cart icon** or **footer bar**, ensuring quick access during browsing.

7. Shopping cart

The **Shopping cart page** allows users to review and manage the items they plan to order before proceeding to checkout.

Empty cart state

- **Cart Item Details**

Each item in the cart includes the following: dish name, price, quantity

- **“X” Button**

Located at the top corner of each item card. When tapped, this removes the individual item from the cart.

- **Quantity Controls**

Consider including "+" and "-" buttons next to the quantity field for easier adjustment.

- **Clear Cart**

Removes **all items** from the cart in one tap, resetting it completely.

- **Checkout**

Tapping this button redirects the user to the **Payment Page**, where they can finalize their order.

8. Payment page

This page allows users to securely select and confirm their preferred payment method before placing an order. Users can choose one of two payment methods:

- **Cash on Delivery**

- Pay the total amount in cash directly to the delivery person upon receiving the order
- Quick and convenient, no card needed

- **Credit / Debit Card**

- Enter card details (Card Number, Expiry Date, CVV)
- Confirm payment instantly within the app

After choosing a payment method and reviewing details, the user taps "**Confirm and Pay**" to complete the purchase.

9. Profile page

After logging into the *BiteBunny* app, you can access your **Profile page** from the top navigation menu. It includes the following sections:

Personal Information

- Displays your name, email, phone number and address
- You can edit your details by clicking the “Edit” button

❤️ Favorite Restaurants

The **Favorite Restaurants** section displays a list of restaurants that you have marked as favorites.

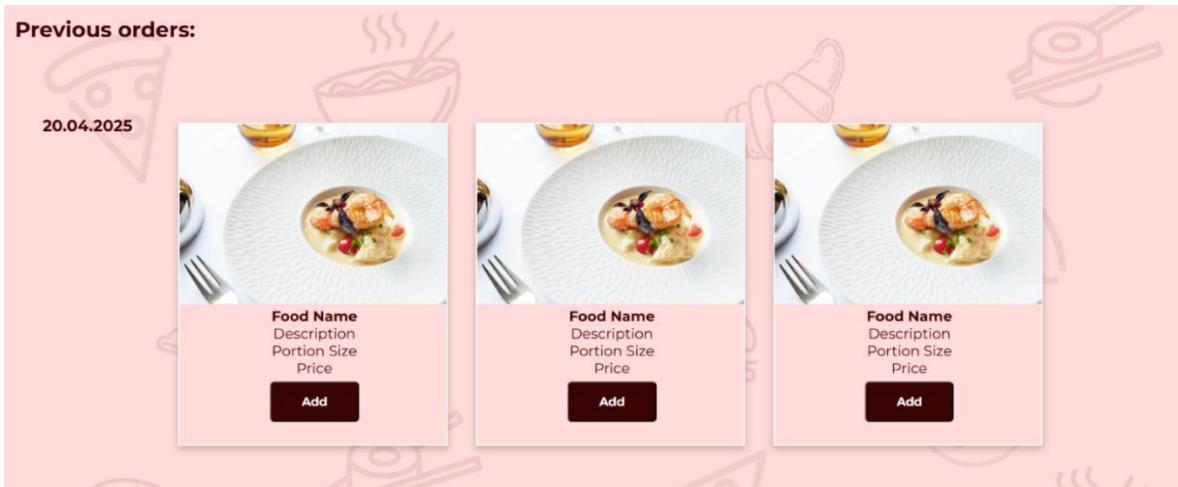

- These restaurants load automatically when you open your profile.
- For each restaurant, you'll see:
 - Name and address
 - Rating and delivery time
 - Buttons:
 - **View menu** – opens the restaurant's menu
 - **Remove** – removes the restaurant from your favorites list

The screenshot shows the profile page of the BiteBunny app. At the top, there is a placeholder for a user profile picture. Below it, the user's details are listed: **Tuce Musa**, **Email: tuc@example.bg**, **Phone Number: 0999888111**, and **Address: No address provided**. A large "Edit" button is located at the bottom right of this section. To the right of the profile area, there are faint illustrations of a croissant and a pizza slice.

Favorite Restaurants:

Restaurant Name	Address	Rating	Delivery Time	Action Buttons
Asian Express	Address(id=1, street=Tsar Osvoboditel Blvd, city=Sofia) Various	★ 5	⌚ 30-45 min	View menu Remove
Pasta Place	Address(id=2, street=Vitosha Blvd, city=Sofia) Various	★ 5	⌚ 30-45 min	View menu Remove
Fast Grab	Address(id=3, street=Graf Ignatiev St, city=Sofia) Various	★ 5	⌚ 30-45 min	View menu Remove

Each restaurant row contains a small image of the food, the restaurant's name, its address, its rating (5 stars), its delivery time (30-45 minutes), and two buttons: "View menu" and "Remove".

Previous orders

The **Previous orders** section shows a list of your past orders, including:

- The date the order was placed
- The list of meals included in the order
- The order status (if applicable)

Reordering Meals

If you want to reorder a meal from a previous order, you can simply click the **“Add”** button.

This will automatically add the selected item back to your cart for easy checkout.

II. Admin

1. Login and Registration

If you don't have an account yet, you can log in using the following default credentials:

- **Email:** admin@bunnybitefood.com
- **Password:** admin123

⚠ These credentials are only for initial access. After login, you'll be prompted to provide your personal details and create your real account.

Automatic Redirect to Registration

After logging in with the default credentials, you will be automatically redirected to a registration form, where you'll need to provide:

- **Personal Information** – name, phone number, address (if applicable)
- **Email and new password** (optional, if you want to change them)
- **Account Type** – Choose one of the following roles:
 - **Admin** – for platform administrators
 - **Driver** – for couriers
 - **Restaurant** – for restaurant accounts

Once the form is completed and submitted, your personal account will be created and you will be redirected to the appropriate dashboard based on your selected role.

2. Navigation bar

3. Create Restaurant

The **Create Restaurant** page includes a form where an admin can register a new restaurant. All form fields are validated to ensure correct and complete input.

- **Phone Number** must be valid

- **Image Upload** must be a valid file (format restrictions may apply)
- **Time Delivery** must be between:
 - **Minimum:** 00:20
 - **Maximum:** 00:50
- **Opening and Closing Hours** must be valid 24-hour time inputs

Once the form is successfully filled, clicking the **Create** button:

- Registers the restaurant
- Redirects the user to the **Catalog page**, where the new restaurant should now appear

4. Create Menu Item

The **Create Menu Item** page allows admin / restaurant owner to add new meals to a restaurant's menu. The form includes input validation to ensure data accuracy and completeness.

- All fields are required – the form will not submit if any input is left empty
- Description has a maximum length of 500 characters
- Numeric fields (e.g., price) must contain valid numbers
- If a condition is not met, the system will display an appropriate error message near the corresponding field

- When all inputs are valid and the **Create** button is clicked:
 - The new menu item is added to the restaurant's offerings
 - The user is redirected to the restaurant's menu page, where the new item is now visible

The screenshot shows a modal window titled "Create Menu Item". The form contains the following fields:

- Food Name:** A text input field labeled "Food name".
- Price:** A text input field labeled "Price".
- Description:** A text area labeled "Enter description..." with a character limit of 0/500.
- Category:** A text input field labeled "Food category".
- Preparation Time (minutes):** A text input field labeled "Preparation ti".
- Ingredients (comma-separated):** A text input field labeled "Ingredient 1, Ingredient 2, ...".
- Choose Image:** A file upload input field with a placeholder "Избор на файл | Няма избран файл".
- Create:** A large grey "Create" button at the bottom.
- Cancel:** A "Cancel" button at the bottom left.

5. Menu page

The **Menu page** displays all available menu items for a given restaurant. This page is accessible to both customers and restaurant owners, with editing options available only to authorized users (e.g., restaurant owners/admins).

Menu Items List

Each item in the menu shows key details such as:

- Name
- Description
- Price
- Image

Edit Button

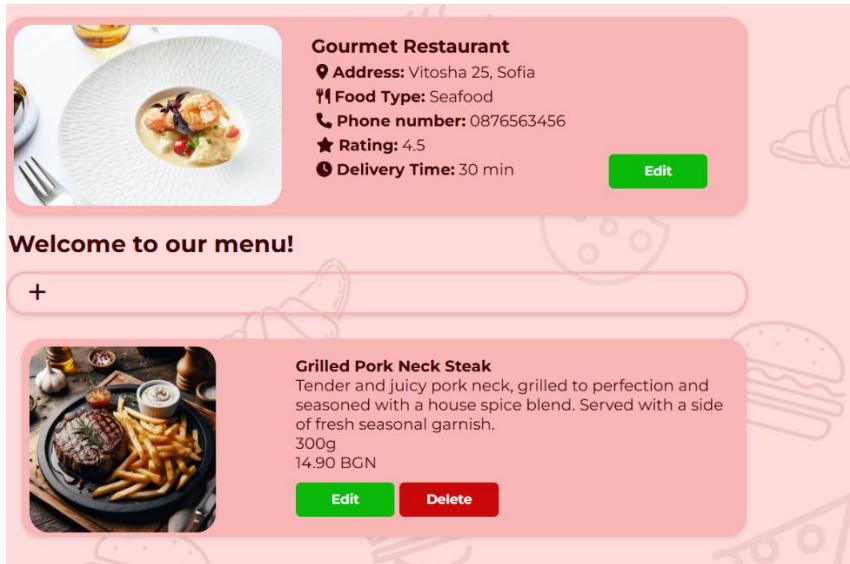

- Clicking the **Edit** button redirects to the **Edit Menu Item Page**, where you can update the item's details

Delete Button

- Clicking the **Delete** button removes the item from the menu after confirmation

Add New Item

- The "+" button allows you to add a new item to the restaurant's menu by redirecting you to **the Create Menu Item Page**

5. Edit Menu page

The screenshot shows the "Edit Menu Item" form. It includes fields for "Food Name" (with a placeholder "Enter name..."), "Price" (with a placeholder "Enter price..."), "Description" (with a placeholder "Enter description..."), "Portion Size" (with a placeholder "Enter portion size..."), and a file input field for "Change a image" with a placeholder "Избор на файл" and a note "Няма избран файл". At the bottom is a large "Edit" button.

The **Edit Menu Item** page is nearly identical to the **Create Menu Item** form, but instead of adding a new item, it allows the admin / restaurant owner to update an existing one.

Functionality

- All fields are pre-filled with the current data of the menu item.
- You can edit any of the fields: name, description, price, image, etc.
- The same validations apply as in the Create page:
 - No empty fields allowed
 - Description max length: 500 characters
 - Numeric fields must contain valid numbers

Save Changes

- After editing, click the **Save** button to update the item
- On successful update, you are redirected back to the menu page for the restaurant
- If any input is invalid, an error message will be shown near the corresponding field

6. Edit Restaurant page

The screenshot shows the 'Edit Restaurant' form. It includes fields for Name (filled with 'Pizza Italia'), Food type (filled with 'Italian'), Address (filled with 'Address{id=13, street=Chervena Roza 30, city=Default C}'), Phone number (filled with '1234567890'), a checkbox for Change image (checked, with 'Choose File' and 'No file chosen' options), and a Time Delivery field set to '12:-- AM'. At the bottom are 'Save Changes' and 'Cancel' buttons.

The **Edit Restaurant Page** is functionally identical to the **Create Restaurant Page**, but instead of adding a new restaurant, it allows admin / restaurant owner to edit the details of an existing one.

Key Features:

- All fields are pre-filled with the restaurant's current data
- You can update any of the fields, and the same validations apply:
 - No field can be left empty
 - **Time Delivery** must be between 00:20 and 00:50

- **Phone** number must be valid
- **Description** length and time format must be correct

Buttons:

- **Save Changes** – Saves the modifications and updates the restaurant's information
- **Cancel** – Cancels the changes and redirects you back without saving

III. Restaurant

1. Login and Registration

If you don't have an account yet, you can log in using the following default credentials:

- **Email:** restaurant@bunnybitefood.com
- **Password:** admin123

⚠ These credentials are only for initial access. After login, you'll be prompted to provide your personal details and create your real account.

Automatic Redirect to Registration

After logging in with the default credentials, you will be **automatically redirected to a registration form**, where you'll need to provide:

- **Personal Information** – Name, phone number, address (if applicable)
- **Email and new password** (optional, if you want to change them)
- **Account Type** – Choose one of the following roles:
 - **Admin** – for platform administrators
 - **Driver** – for couriers
 - **Restaurant** – for restaurant accounts

Once the form is completed and submitted, your personal account will be created, and you will be redirected to the appropriate dashboard based on your selected role.

2. Navigation bar

3. Dashboard page

Accepting or Declining Orders

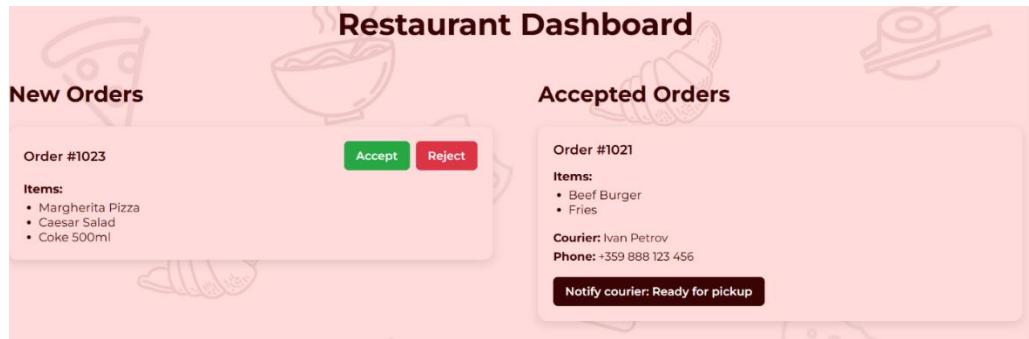

- Restaurants receive a notification when a new order is placed
- They can **accept** or **decline** the order depending on their current availability

Notifying the Courier

- Once the order is accepted, the restaurant can notify the courier when the food will be ready for pickup
- This is done easily via a button in the app (e.g., “Ready for Pickup”).

Viewing Order Details

- The restaurant can see:
 - All dishes included in the order
 - The name and phone number of the courier assigned to pick up the order
 - This enables direct communication if needed

IV. Courier(Driver)

1. Login and Registration

If you don't have an account yet, you can log in using the following default credentials:

- **Email:** courier@bunnybitefood.com
- **Password:** admin123

⚠ These credentials are only for initial access. After login, you'll be prompted to provide your personal details and create your real account.

Automatic Redirect to Registration

After logging in with the default credentials, you will be **automatically redirected to a registration form**, where you'll need to provide:

- **Personal Information** – name, phone number, address (if applicable)
- **Email and new password** (optional, if you want to change them)
- **Account Type** – Choose one of the following roles:
 - **Admin** – for platform administrators
 - **Driver** – for couriers
 - **Restaurant** – for restaurant accounts

Once the form is completed and submitted, your personal account will be created, and you will be redirected to the appropriate dashboard based on your selected role.

2. Navigation bar

3. Dashboard page

The dashboard is divided into three main sections:

The Delivery Dashboard features a pink-themed interface with various food-related icons (steaming bowls, pizza slices, burgers) in the background. It is divided into three main sections: 'New Orders' (left), 'Active Orders' (top right), and 'Completed Orders' (bottom right).

- New Orders:** Displays two new orders: 'Order #1236 - Chicken Wrap' and 'Order #1237 - Vegan Burger'. Each order has an '[Accept]' button to its right.
- Active Orders:** Displays two active orders: 'Order #1234 - Margherita Pizza' and 'Order #1235 - Sushi Set'. Each order has a 'Received' dropdown menu to its right.
- Completed Orders:** Displays two completed orders: 'Order #1229 - Bolognese Pasta' and 'Order #1230 - Caesar Salad'.

A banner at the bottom of the 'Completed Orders' section states: 'Bonus for 10 completed orders today: 20 BGN'.

New Orders

- All new orders are sent to all available couriers
- The first courier to accept an order will be assigned to it
- Once accepted, the order becomes visible only to the assigned courier

This screenshot shows the detailed view of an active order. The top right corner displays 'Order #101'. The order information includes:

- Order Date:** May 3, 2025, 6:31:20 PM
- Address:** 123 Demo Street, Sofia
- Restaurant:** Demo Restaurant
- Status:** pending
- Estimated Delivery:** May 3, 2025, 7:16:20 PM

The 'Order Items' section lists the items and their details:

Margherita Pizza	x2	BGN 25.98
Coca Cola	x2	BGN 5.00
Total:		BGN 30.98

At the bottom are two buttons: 'Accept Order' (dark blue) and 'Cancel Order' (red).

Active Orders

- Displays all orders currently being handled by the courier.
- Clicking on any order (in any section) redirects the courier to the order details screen. There, the courier sees detailed information including:
 - Items in the order
 - Restaurant address
 - Customer contact and delivery location

- A button labeled “**Start Preparing**” appears as the first action
- When clicked, it updates to the next status: “**Mark Out for Delivery**”
- Further clicks continue advancing the status (e.g., “Delivered”)

Order #103

[Back to Dashboard](#)

Order Date: May 3, 2025, 6:16:20 PM
